## Terms and conditions

There are no requirements for numbers of users or numbers of licenses. An organization can send any number of participants to the conference at the organization's rate. Firms and agencies currently evaluating Citilabs software may attend at the "non user rate." Students can register at the rate that their college or university qualifies for.

The registration fee includes all in-hotel conference events, such as the opening reception and group meals. You must purchase tickets to the training seminars and events, such as the pre-conference golf tournament and the off-road tour and dinner. You can also purchase guest tickets for the optional events, on a first-come, first-served basis.

In the rare event that a class or event schedule changes or must be canceled, Citilabs will contact registrants as soon as possible.

Transportation to the conference site is the registrant's responsibility. Citilabs assumes no responsibility for nonrefundable travel arrangement losses resulting from changes or cancellations.

## Cancellation policy

Citilabs will refund fees ONLY, less a \$75 handling charge, for cancellations received in writing by October 1, 2009.

## Submission

Please submit completed registration forms to Citilabs.
